

Application-Report

Smurfit Kappa

Application	<p>Continuous measurement of position and orientation of the forklift truck operating in the paper reel storage area.</p> <p>Each reel is assigned its precise physical position at the time it is placed. When being picked up again for the production process or for relocation in the block storage, the ID of each reel is automatically determined by its position.</p>
Sensor type	LPR-A
Commissioning year	2006
Remarks	<p>SensorFusion of LPR sensors with an on-board 2-dimensional laser scanner in order to ensure uninterrupted positioning even in narrow aisles of the reel block storage.</p>
